Medical Education Minister holds COVID review meeting

Instructs officials to adopt centralised allotment system for admission of infected patients

Mysuru,Oct.5 (RK&DM)- With the number of COVID-19 positive cases rising by the day in the District, Medical Education Minister Dr. K. Sudhakar held a COVID-19 review meeting at ZP Hall here this morning.

Soon as the meeting began, Deputy Commissioner Rohini Sindhuri apprised the Minister on the latest COVID situation in the City and District through an elaborate power-point presentation that contained details about the medical facilities and services available and the measures taken for combating the deadly contagion.

Later, explaining the main reasons for the rising number of cases, the DC said that COVID testing has been affected to a considerable extent by the indefinite stir launched by Contract Doctors and other medical staff and also due to lack of oxygenated beds in Hospitals. She wanted the Government to appoint more staff.

Expressing disappointment over rampant spread of the virus in the District, with Mysuru city being the worst affected, Dr. Sudhakar expressed concern that Mysuru has a higher rate of incidence as compared to other Districts of the State.

DC Rohini Sindhuri said that shortage of staff and lack of centralised oxygen system in many Hospitals of the District are proving to be major hurdles in stopping the spread of the virus.

Medical Education Minister Dr. K. Sudhakar, who chaired a COVID-19 review meeting at ZP Hall in city this morning, seen with MLA L. Nagendra, MLC A.H. Vishwanath and DC Rohini Sindhuri.

Dr. Veeresh Kumar, Medical Superintendent of ESI Hospital on KRS Road, who attended the meeting, said that with the Hospital virtually turned into a COVID Hospital, non-COVID patients covered under ESI medical benefits were finding it increasingly difficult to get treatment for their ailments.

Pointing out that ESI Hospital is a 100-bed facility, he said that the Hospital was also facing staff shortage. Seeking intervention of the Labour Department for appointment of the required staff on contract basis, he appealed the Minister to ensure that at least 50 percent of the Hospital beds are made available for non-COVID patients.

Stating that he would take up the ESI Hospital issue with the concerned authorities, Dr. Sudhakar said that with Dasara round the corner, the authorities must work harder and faster to contain the spread of the contagion.

Noting that Mysuru has a considerably high positive rate of 10 percent, the Minister said that it is vital for bringing down this rate much lower.

Seeking to know the precautionary and safety measures that will be taken for Dasara, Dr. Sudhakar maintained that the authorities, while celebrating the 10-day annual Dasara festival, must keep in mind that the example of Kerala does not repeat here, as Kerala witnessed a sudden spurt of the virus following a festival in which a large number of people took part.

With mortality rate higher in the District, the Minister directed the authorities for a more stricter enforcement of penalty rule (Rs.1,000 in city areas and Rs.500 in rural areas) to make sure that all people compulsorily wear face masks when they come out in public.

Noting that COVID death rate in Mysuru is 1.9 percent, which is significantly higher than 1.5 percent elsewhere in State and 1.6 percent in the country, he directed the officials to form a centralised nodal system, involving responsible citizens and volunteers, for tracking those under home isolation and home quarantine, especially when the District has witnessed 11 deaths among those in home quarantine.

Chamaraja MLA L. Nagendra alleged that officials were not serious in their job for stopping the spread of the virus. He wanted the Government to take some more drastic steps for making concerted efforts involving all stakeholders for tackling the deadly virus.

MLCs A.H. Vishwanath and Marithibbegowda, DCP Dr. A.N. Prakash Gowda, ZP CEO D. Bharathi, MCC Commissioner Gurudatta Hegde, ZP President Parimala Shyam and a host of other officials were present at the meeting.

Alleged Corruption Case

CBI sleuths raid DK Bros.

Bengaluru, Oct. 5 (UNI&Agencies)- The Central Bureau of Investigation (CBI) sleuths raided the houses of KPCC President D.K. Shivakumar (DKS) and his brother D.K. Suresh, MP from Bengaluru Rural, this morning.

According to official sources, the raid has been conducted in relation to alleged charges of corruption under the Prevention of Corruption Act, initiated by the Enforcement Directorate (ED).

The sources said that the CBI sleuths, in eight teams, conducted raids simultaneously on the residences of Congress brothers, located in posh localities across the city.

D.K. Shivakumar *D.K. Suresh*

The CBI team also raided the houses of Shivakumar in his Assembly Constituency Kanakapura and carried out searches into the alleged corruption charges.

The CBI action comes after the State Government had granted it permission to investigate charges of corruption against DKS recently. Today's raids being carried out at 14 locations have been defined by the Karnataka Congress as an "attempt to derail our preparation for bypolls." Bypolls will be held on Nov. 3.

World's first Forensic Science University to be set up in India

Kishan Reddy

Hyderabad, Oct . 5 (UNI)- Union Minister of State for Home Affairs G. Kishan Reddy yesterday said that the Union Government will set up the world's first Forensic Science University in India.

Speaking after inaugurating CCTV Cameras at DCP East Zone office in Amberpet here, Reddy said that the vacant posts of 41 percent in Forensic Labs would be filled up soon.

Stating that National Defence University will be set up soon to get jobs in the Paramilitary, the Minister said that the Centre was also planning to make changes to IPC and CrPC Sections in the country. "We are also taking public opinion in this regard," Reddy said.

Praising Telangana and Andhra Police for doing an exemplary job, he said, Telangana was at the forefront of enforcing punishments for the accused through existing technology.

"We have given first priority to control the crime as part of the Safe City in Metro cities across the country," he added.

In India, 8 cities were selected in Safe Cities scheme, including Hyderabad. The Central Government had provided direct financial assistance as part of the scheme, he said.

Amberpet MLA Kaleru Venkatesh said that the Hyderabad city is at the forefront of CCTV surveillance in the country. He said Command Control Centre in Banjara Hills will be available very soon.

Hyderabad City Police Commissioner Anjani Kumar said the city ranks first in the country for the last two years. There is public cooperation in all aspects. About 30-40 percent of complaints were coming through social media in every Police Station.

"Face recognition technology is very useful in every case. We have the technology to detect even at night also. There are over 5 lakh cameras in the city," the Commissioner added.

EDITOR'S BOTTOMLINE

I joined Twitter in 2009 and have since maintained fidelity to this social media platform. Frankly, I have never been a Facebook aficionado, albeit I reluctantly opened an account because there was this phase when many thought that if I did not increase Mark Zuckerberg's market capitalisation, I was an anachronism in the age of Big Tech. It was the cool thing to do; I remember going to parties frequented mostly by those with a visible hangover of a mid-life crisis who brightened up when saying: "Let's connect on Facebook." That same seemingly innocuous Facebook has now become an uncontrollable Frankenstein, a gargantuan monster that is capable of slaying democracies, upending social behaviour, destroying fragile minds and creating a toxic addiction to screen time. The Social Dilemma documentary tries to capture the raging madness that has imperceptibly overwhelmed humanity. Incidentally, the Facebook CEO is now among the top three richest in the world. Zuckerberg has an obsessive objective to dominate the planet. The 36-year-old already has 2.6 billion active users on Facebook; it has become a vanity project for him. If you were Zuckerberg, just imagine the absolute power he commands. He can be the king-maker in the political chessboard of democracies. Ankhi Das, the controversial public policy director of Facebook, let the cat out of the bag by making a telling comment that most missed: she let hate speeches go uncensored "because it could damage government relationship (with the ruling BJP)". Facebook courts governments; if Joe Biden wins, Facebook will chaperone what Trump calls "radical left loonies". If BJP loses in 2024, trust me, Facebook and Congress will do a slow-dance cheek by jowl. That is Zuckerberg's business model: government schmoozing.

NEWS SPARKLERS

This mossy twig is a moth larva in disguise

Madagascar: A wildlife photographer, who recently captured a mossy twig on a moss-covered tree on his camera, later came to know that it is actually a moth larva, one of nature's most extraordinary camouflage masters. The larva captured by wildlife photographer David Weiller in the Madagascar rainforest is definitely the most impressive.

Looking like a bulbous patch of moss and lichen with a twig-like body attached to a moss-covered tree, this fascinating creature looks like part of the tree, not a living thing. Although the wildlife photographer doesn't offer too many details about the critter, he does mention that it is a Camouflage Moth Larva (Superfamily Tineoidea) from the rainforest of Andasibe, in Madagascar.

Bear rides to Police Station on garbage truck

Pennsylvania: Police in Pennsylvania recently received a complaint about a bear, but they did not have to go behind it to catch it as the animal was obliging enough to hitch a ride to the Police Station on a garbage truck. The Kidder Township Police Department posted photos of the black bear riding the truck on Facebook, where they have gone viral with thousands of amused comments and reactions. The fact that the bear appears to be enjoying the ride - its face seems stretched into a smile in two of the photographs - has contributed to the post's popularity.

The Police said that bear sightings in the area had increased and added that the bear made its way down safely after the truck was backed to a tree.

HEALTH CAPSULE by Bron Smith

Is human fertility decreasing?

Human fertility is now declining as our planet becomes choked with chemicals and devitalised food. 1 in 4 couples are now unable to have children because of miscarriage and conception problems. Fertility is a leading indicator of human health.

** Health Capsules is not intended to be of a diagnostic nature.*

VOICE OF THE READER

National Education Policy to transform India's Education System by 2040

Sir,

Can National Education Policy (NEP) revolutionise Education System in India? As among many of your readers, I am also curious about the outcome of NEP, which is expected to be fully implemented from the year 2022 - 2023. The changes will be at the National-level, for all Schools and Colleges in the country and no independent State will have freedom to differ from the main theme, that is 5 + 3 + 3 + 4, replacing the old system of 10 + 2.

Let me explain:

1. In the current system that is 10+2 system, it is not just 12 but in fact 15 years. But only in the cities children would attend Pre-KG, LKG and UKG 3 years, in private schools before joining 1st standard and go on to 2nd, making it 5 years in all. This is termed FOUNDATION STAGE in NEP.

Whereas in rural areas and in Government Schools in cities, kids had no such facility but some kind of a nursery called Anganawadi. So it would be counted from first standard to tenth and 2 year PU (10+2).

2. The second 3+3 are named PREPARATORY (3rd, 4th and 5th) and MIDDLE (6th, 7th & 8th) stages.

3. The last segment consisting of 4 years, named SECONDARY STAGE (9th, 10th, 11th & 12th) is interesting as it has undergone a structural change.

4. NEP intends to introduce from class 6, Coding, Project work, and Vocational Course coupled with Internships. It is expected that by the time the child is eleven years old, it should be able to find its area of interest to pursue !

5. The Secondary Stage, the Multi-Disciplinary Stage, is designed to make it learner-friendly. Here the students who will be 14 years of age, are offered a basket of subjects to choose from, comprising Science, Commerce and Arts together with extracurricular activities like music, dance or any other physical activity, which will be also treated as a subject. This is really a big relief to all (students, parents and teachers) because no one is forced to struggle with a subject that he does not enjoy learning. Now one can choose for example Physics, Economics and Music if that is his choice.

6. Are our teachers ready for the change ? It is these people who will be the most important key to implement all the holistic principles of NEP. Therefore, NEP proposes to introduce NATIONAL CURRICULUM FRAMEWORK FOR TEACHER EDUCATION (NCFTE), because insufficient number of teachers or low recruitment of trained teachers have been persisting problems of Indian School System.

7. The all important issue is assessment of students, that is the Exam System. NEP proposes to lessen the burden (of learning by heart or the rote system) by testing the Core Concepts and the Competencies of the students.

It is said that for the students of 10th standard for the years 2021 March and 2022 March, the Board Exams will be as in the current model without change. The expectations are that the painful Annual Exams are going to be replaced by semester modules for the year 2022-2023.

When implemented, there will be two exams in a Semester. If the student does not feel happy about his first performance, he will be provided with another opportunity to improve his results. All these are being thought of to completely eradicate the exam pressure and its undesirable consequences.

8. Regarding assessment, a novel scheme called "PARAKH" (Performance Assessment Review And Analysis Of Knowledge For Holistic Development) is being thought of. The report card will be multidimensional. The progress report will include *a)* Teacher Assessment, *b)* Self assessment, and *c)* Peer Assessment.

My only apprehension is how on earth the teachers are going to coordinate all these aspects and do justice. I have touched only some issues of NEP and certainly there is much more than what I have attempted to put forward.

NEP hopes to completely transform India's Education System by 2040. I wish the students good luck and ask them to be ready to share the glories of NEP.

'Top priority in COVID immunisation to frontline healthcare workers'

- **Union Health Minister interacts with social media users in Sunday Samvaad-4**
- **States to submit lists of priority population groups by month end**
- **400-500 million doses to cover approximately 20-25 crore people by July 2021**

New Delhi, Oct. 5 (UNI) - Union Health Minister Dr. Harsh Vardhan yesterday said that the Government has set up several Committees to work out the process of distribution of COVID-19 vaccines across the country.

Interacting with social media users during *Sunday Samvaad-4*, he said that topmost priority in COVID-19 immunisation will be given to frontline healthcare workers.

Dr. Harsh Vardhan said that the Health Ministry is currently preparing a format in which States will submit lists of priority population groups to receive vaccine, especially health workers engaged in the management of COVID-19.

The list of frontline health workers will include both Government as well as private sector doctors, nurses, paramedics, sanitary staff, ASHA workers, surveillance officers and many other occupational categories who are involved in tracing, testing and treatment of patients.

This exercise is targeted to be completed by the end of this October and the States are being closely guided to also submit details about cold chain facilities and other related infrastructure which will be required down to the block level.

He said that the Centre is also working on plans for building capacities in HR, training, supervision etc., on a massive scale and roughly estimates to receive and utilise 400-500 million doses covering approximately 20-25 crore people by July 2021. He further informed that the Government is also keeping an eye on immunity data with regard to COVID-19 disease while finalising these plans.

He stated that there is a High-level Committee under the Chairmanship of NITI Aayog Member (Health) V.K. Paul which is drawing up the entire process.

Dr. Harsh Vardhan

"Vaccine procurement is being done centrally and each consignment will be tracked real time until delivery to ensure it reaches those who need it most," the Minister said.

He added that these Committees are working on understanding the timelines of availability of various vaccines in the country, obtaining commitments from vaccine manufacturers to make available maximum number of doses for India inventory and supply chain management and also on prioritisation of high-risk groups.

"This is work in progress which will be completed by the time the vaccines are ready to ensure the swift roll-out of the immunisation programme," the Minister said.

Clearing glaring misconceptions that seem to have captured the imagination of rumour mongers in pockets of Punjab, Dr. Harsh Vardhan strongly rebutted allegations that the COVID-19 pandemic was a Government conspiracy to enable organ harvesting of healthy individuals. He stated that the Government is not tied to fiscal considerations from financing agencies for implementation of the COVID-19 emergency response in the light of the recent loan from the World Bank- Asian Infrastructural Investment Bank and the Asian Development Bank to the tune of Rs. 15,000 crore for managing COVID.

The Minister assured another respondent that there would be no diversion or black-marketing. "Vaccines will be distributed as per pre-decided priority and in a programmed manner. To ensure transparency and accountability, details of the entire process will be shared in the coming months," the Minister said.

He stressed the need to prioritise health care workers and adults or those have underlying health conditions.

Answering similar questions, he said that it is not possible to comment on the superiority of one vaccine over the other although he would ensure "that even if we have multiple vaccines available, they will all be safe and will elicit the requisite immune response against Novel Coronavirus."

He said that all vaccines that have proven to be safe, immunogenic and efficacious in clinical trials outside India need to undergo bridging studies to prove their safety and immunogenicity in the Indian population as well although these studies can be conducted with much smaller sample size and end quickly.

Clinical trials

While tackling a question on the level playing field for various clinical trials, Dr. Harsh Vardhan shared that all proposed clinical trials in India are designed using set principles and are stringently reviewed by the Subject Expert Committee set up by the Drug Controller General of India.

Recently, the Drugs Controller General of India (DCGI) has also formulated draft guidelines on regulatory requirements for licensure of COVID-19 vaccines in India.

On a question regarding Phase-3 Clinical Trial of Russia's "Sputnik-V" vaccine in India, Dr. Harsh Vardhan clarified that the matter is still under consideration, and no decision has been taken as yet on the Phase-3 trials.

NEWS BRIEFS

Diploma admission

JSS Polytechnic, Mysuru, has a few vacant seats reserved for SC/ST and General Category students for the academic year 2020-21. Interested students can contact the College Principal for admission. Students who have passed ITI and PUC (PCMB) are eligible for direct admission to third semester of Diploma courses. For details, call Ph: 0821-2548318 or 96866-77237.

JSS Online Matrimonial Meet

JSS Vivaha Vedike will be conducting online matrimonial meet on Oct. 18 from 11 am to 1 pm. Those who have registered with the Vedike may attend the meet. Interested prospective brides and grooms can also register at the Vedike office. For details, contact Ph: 0821-2430322 or Mob: 96110-70674, according to a release.

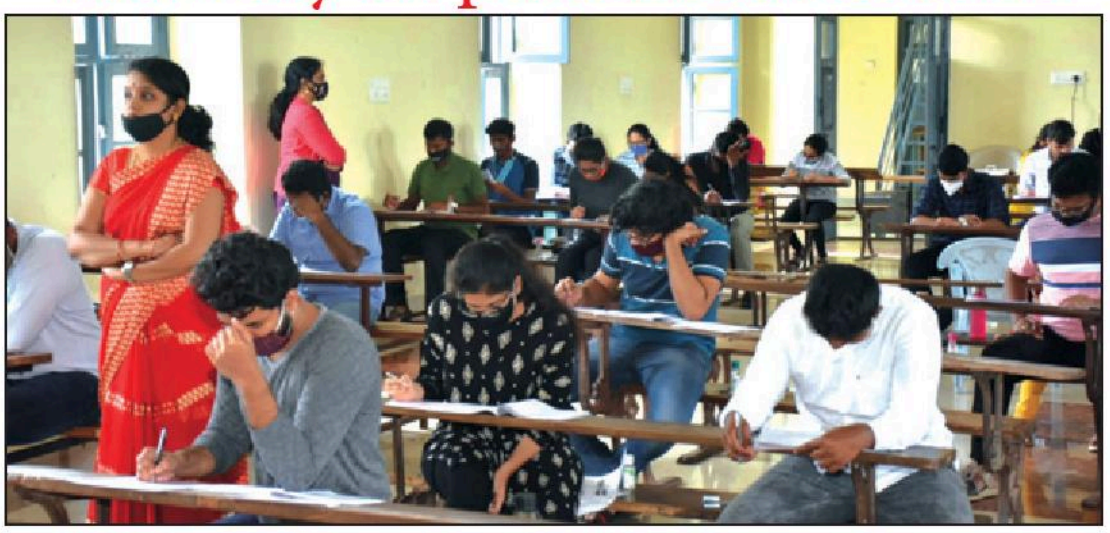
Nearly 10,000 candidates write KTET in city

UPSC Prelims held at 14 centres with only 50 percent attendance



Mysuru, Oct. 5 (RKB&DM)- The Karnataka Teacher Eligibility Test (KTET) for getting qualified to appear in the Common Entrance Test (CET) for appointment as Government School Teachers (Primary and High Schools), was held yesterday in the city.

While the KTET (High School) for B.Ed passed candidates was held at 10 centres in the morning, the test (Primary School) for D.Ed passed candidates was held at 22 centres in the afternoon.

As many as 3,551 B.Ed passed candidates had registered for the exam, while 8,351 D.Ed passed candidates had registered for the exam at centres in the city.

The exam was conducted as per the Standard Operating Procedures (SOP) set out by the Government in the wake of COVID-19 pandemic.

While 2,748 candidates appeared for B.Ed TET, 7,013 candidates appeared for D.Ed TET (Total: 9,761), according to DDPI Dr. Panduranga.

Only those who qualify in the KTET will become eligible to appear for the CET to be held by the Education Department for appointment of teachers in Government Schools of the State.

UPSC Civil Services (Preliminary) exam

The Civil Services (Preliminary) exam conducted by the Union Public Service Commission (UPSC) was held at 14 centres across the city yesterday with all COVID-19 precautionary and safety measures in place.

A total of 5,350 candidates had registered for the exam at the city centres, which included Nirmala Convent in V.V. Mohalla, Marimallappa's PU College, Mahajana PU College in Jayalaskhmipuram, Maharaja's PU College on JLB Road, Vijaya Vittala PU College in Saraswathipuram and MMK&SDM College for Women in Krishnamurthypuram, among others.

The exam consisted of two papers — General Studies-1 (morning session) and General Studies-2 (afternoon session).

Only a little more than half of the registered candidates appeared for both the papers, according to sources.

The City Police had imposed prohibitory orders under Section 144 of Cr.PC in 200 mtrs radius of all the 14 exam centres from 6 am to 6 pm yesterday for the smooth conduct of the exam.

The exam, which was earlier scheduled to take place on May 31, was postponed due to the outbreak of COVID-19 pandemic.

Over 10 lakh candidates had registered for the exam, which was held at more than 2,500 centres in 72 cities across the country, including Mysuru.

Distribution of face masks to lorry drivers, labourers mark MLA Tanveer Sait's birthday celebration

Mysuru, Oct. 5- Creation of COVID-19 awareness and distribution of face masks to lorry drivers, loaders and other labourers marked the birthday celebration of Narasimharaja (NR) Congress MLA Tanveer Sait in city yesterday.

MLA Tanveer Sait

Congress workers, led by Azeez Sait Block Congress Committee President Abdul Khader Shahid, distributed face masks to lorry drivers, loaders and daily wage labourers at the lorry stand on Jodi Tenginamara Road in Bannimantap here.

Speaking on the occasion , Abdul Khader stressed on the need for mandatory wearing of face mask in the wake of the havoc caused by COVID-19 pandemic.

Highlighting the necessity of wearing face mask as a precautionary and safety measure in the wake of rampant spread of the deadly contagion, he said that anyone who is found not wearing face mask will have to pay an exorbitant fine of Rs.1,000.

Sensitising the gathering on the measures to be taken for stopping the spread of the pandemic, he said that everyone must understand that prevention is better than cure.

Noting that catching the infection will not only hurt the individual but also every other member of the family, he said that all should realise that health is more important than everything else and as such, all necessary precautions laid out by the Government must be taken.

Reiterating the need for wearing face mask, use of hand sanitisers and maintenance of physical distancing, Khader said that everyone should join hands in the battle against the deadly virus, which is causing untold havoc across the globe.

Congress workers, who stopped vehicle riders not wearing mask, distributed masks with a warning that not wearing mask would attract a whopping fine of Rs. 1,000 from the Police, Mysuru City Corporation (MCC) officials and other authorised staff.

Speaking to *Star of Mysore*, Khader said that Tanveer Sait's birthday is being celebrated in a purposeful manner by distributing face masks to hundreds of lorry drivers, labourers and the like.

Pointing out that following directions from the MLA, it has been planned to distribute masks to all the poor in NR Assembly segment in the coming days, he said that at the same time, the people are sensitised on the safety measures they have to follow for preventing the spread of COVID-19. The people are also warned that they have to shell out a hefty fine of Rs.1,000 if they are found not wearing face mask in public, he added.

City Congress President R. Murthy, General Secretary Shivanna, leaders Syed Iqbal, Sahil Shahinsha, social worker Star Shafi, Corporator Akmal Shariff and others were present during the distribution drive.

Wild tusker that created panic among villagers captured

- It is the tallest elephant captured in Kodagu
- Released at Moolehole Range in Bandipur

The wild tusker captured yesterday near Devarakadu in Thithimathi Range. Picture right shows the Forest officials and staff, who took part in the operation to capture the elephant.

Virajpet, Oct. 5 (MTY&KS)- A wild tusker, which had killed a man and attempted to damage vehicles besides causing panic among villagers since four months has been finally captured. The pachyderm was released yesterday midnight at Moolehole Range in Bandipur Tiger Reserve on instructions from senior Forest officials.

The wild tusker, which was spotted at Kuttanda Forest in Virajpet Range of Nagarahole Reserve Forest in Virajpet taluk, had created panic among the villagers since four months. Following instructions from senior Forest officials, a team of more than 100 forest staff, who conducted an operation on Saturday, have successfully captured the wild tusker yesterday.

On July 4, the wild tusker had attacked tribal Saacha of Yarur tribal hamlet and had killed him. This wild elephant was also frequently spotted at villages in forest border and was attempting to attack moving vehicles. It had also attacked an autorickshaw at Kaikeri and had damaged it which had resulted in villagers of Hosur, Kalathmad, Kaikeri and surrounding villages living in fear.

The villagers had demanded the Forest Department to capture the wild tusker and release it elsewhere.

Following an order from the Principal Chief Conservator of Forests (PCCF), the Forest staff made frequent attempts to drive back the wild tusker to the forest, but the elephant, which did not move from the spot had stayed put causing a headache to villagers. Senior Forest officials, who took the issue seriously, ordered the capture of the wild tusker and relocate it. Following instructions, the Forest staff led by Kodagu Circle CCF T. Heeralal, began the operation to capture the wild elephant with the help of locals and came to know that the wild tusker was near Ayyappa Devarakadu near Devarapura village in Thithimathi Range.

The Forest officials immediately summoned elephants Arjuna from Balle Elephant Camp, Krishna, Ganesh and Gopalaswamy from Mathigodu and Harsha from Dubare Elephant Camp and commenced the operation on Saturday. Yesterday afternoon, sharp shooter Akram was successful in tranquilising the elephant. But the wild elephant began to charge on tamed elephants.

As there was more than 100 Forest staff present at the spot, the wild elephant moved towards coffee estates and later, with the help of tamed elephants the wild tusker was captured by tying huge ropes around it. After medication and rest, the wild tusker was released into Bandipur Tiger Reserve yesterday midnight.

Virajpet Division Assistant Conservator of Forests (ACF) Roshni, Probationary ACF Malini, Veterinarian Dr. Mujeeb, Range Forest Officer (RFO) Kallira Devaiah, Deputy Range Forest Officers (DRFOs) Manoj, Sanjith, Uthappa and staff of RRT from Ammathi and Virajpet took part in the operation.

At 9.2 ft, it is taller than Howdah elephant Abhimanyu

The wild tusker that was captured yesterday is the tallest tusker captured in Kodagu so far. More than 30 wild elephants have been captured in Kodagu since 10 years and this tusker is the tallest. It is aged between 35 and 40 years and is 9.2 ft. tall. Abhimanyu, who is tasked to carry the Golden Howdah at the Jumboo Savari this year, is 8.79 ft. (2.68 mts) tall.

Teenage girls among six persons missing from city

Tasmiya Banu *R. Rekha* *Arpuda Mary* *Idris Khan* *Siddaiah* *Lingappa*

Mysuru, Oct. 5 (RK&KS)-Three teenage girls are among six persons, who have gone missing in separate incidents from Udayagiri Police limits in city.

In the first incident, 15-year-old **Tasmiya Banu** of Shanthinagar, who left her house on Sept. 29 at about 3 am, has since gone missing. She is 5.4 ft. tall, oval faced, wheatish complexioned, normal built and speaks Urdu.

In the second incident, 17-year-old **R. Rekha** of Lidkar Colony in Sathagalli, who left her house on Sept. 7 afternoon has since gone missing.

She is 5.3 ft. tall, oval faced, oily red complexioned, has a scar on her forehead and is a PU student.

Arpuda Mary, a 16-year-old resident of Indira Colony, who left her house on Sept. 23 evening, has since gone missing. She is 5.6 ft. tall, oval faced, lean built and speaks Kannada and Tamil.

19-year-old **Idris Khan**, a resident of Shanthinagar, who left his house on Sept. 14, has since gone missing.

He is 5.2 ft. tall, round faced, normal built, wheatish complexioned and speaks Kannada and Urdu languages.

Siddaiah, a 72-year-old resident of Udayagiri, has gone missing from Sept. 14.

His one leg has been amputated following gangrene.

Those having any information about the above missing persons may contact Udayagiri Police Station on Ph: 0821-2418309 or call Police Control Room on Ph: 0821-2418339.

In another incident, 58-year-old **Lingappa**, has gone missing from Metagalli Police limits since Sept. 21.

He is round faced, normal built and wheatish complexioned. Anyone having any information about Lingappa may contact Metagalli Police Station on Ph: 0821-2418315 or call Police Control Room on Ph: 0821-2418339.

Obituary

Abdul Sattar

Mysuru, Oct. 5 - Abdul Sattar

(75), President of Kolar Bara Imam Shadi Mahal on Ashoka Road and a resident of Ashoka Road West cross in Lashkar Mohalla, passed away yesterday in city.

He leaves behind his wife, one son and a host of relatives and friends.

Namaz-e-Janaza was offered today at 1.30 pm after Namaz-e-Zohar at Masjid e Azam on Ashoka Road followed by the burial at the Muslim Burial Grounds near Tipu Circle, according to sources.

Ullal Padmini Kini

Ullal Padmini Kini (92), wife of late Ullal Venkatesh Kini and a retired teacher, passed away on Sept. 30 in city.

She leaves behind daughter Dr. Sheila Shenoy, son Dr. Subhash Kini, son-in-law, daughter-in-law, grand children, great grand-daughter and a host of students, relatives and friends.

Last rites were held in city, according to family sources.

City Physicians support Corona Warriors

*Seen are (from left) **Dr. Pratibha Pereira, Dr. Bhanu Kumar (President - API), Dr. C.D. Sreenivasa Murthy (Chairman - MPMRT), Dr. M. Sreenivasa (Treasurer - MPMRT), Dr. Col. M. Dayananda (Medical Director, JSS Hospital), Dr. H. Basavanagowdappa (Principal - JSS Medical College) and Dr. M. Guruswamy (Medical Superintendent, JSS Hospital).***

Mysuru, Oct.5- Mysore Physicians' Medical Research Trust (MPMRT) and Association of Physicians of India (API), Mysore Chapter, donated disinfectant tunnels (Iodine tunnel which will be useful to disinfect PPE before doffing off) to JSS Hospital and KR Hospital recently.

They also distributed one thousand 3M N95 face masks and pulse oximeters, and digital BP apparatuses to JSS Hospital, KR Hospital, Bibi Ayesha-Brindavan COVID Hospital, Asha Kiran Hospital and Vikram COVID Care Centre recently.

The decontamination chamber (disinfectant tunnel) uses a technology where a concentrated fine mist with mean particle size of 12 microns is suspended in the decontamination chamber covering from head to toe of the people passing through them. The wet mist/fog decontamination is gentle and soft and does not cause any physical injury.

Decontamination Chamber

The formulation used is similar to the Povidone-Iodine (Betadine) currently used in the hospitals, but at very low concentrations which has the maximum viral killing activity.

It is extremely effective and for an exposure time of 30 seconds, it effectively inactivates 99.9% of the virus. This device is very useful for doffing the personal protective equipment (PPE) medical personnel wear before they enter the COVID Wards or Intensive Care Units.

This disinfectant tunnel has been manufactured by Mysuru-based S3V TECHNOLOGIES.

In a first, Annual DGP, IGP meet to be held virtually

PM Modi and Amit Shah to attend

New Delhi, Oct. 5- For the first time in its history, the Annual Conference of the country's top Police brass will be held virtually next month amid the Coronavirus pandemic, officials said on Sunday.

About 250 officers in the rank of DGP and IGP from all States, Union Territories and Central Government will take part in the two-day virtual meeting to be attended by Prime Minister Narendra Modi, Union Home Minister Amit Shah, National Security Advisor Ajit Doval among others.

The key role played by Police during a disaster and pandemic, new-age crimes like cyber terrorism, radicalisation of the youth and the Pakistan-sponsored militants in Jammu and Kashmir will be discussed during the conference, to be held in multiple sessions, a Union Home Ministry official told.

The conference will be held in the last week of November, the official said.

As the role of Police during the ongoing pandemic came under wholesome praise from all quarters, the meeting is expected to discuss how to enhance their knowledge and capabilities to handle natural disasters and such health crisis, the official said.

The State Police Chiefs will share their experiences in handling the pandemic and how the Police have helped the distressed people and the migrant workers during the nationwide lockdown.

The PM is likely to make special mention about the exemplary work done by Police personnel while fighting the Coronavirus, the official said.

According to an estimate, about 75,000 Police and Paramilitary personnel were infected by Coronavirus in the country and about 600 of them succumbed to the virus.

Among those infected include about 32,500 Paramilitary personnel and 24,000 Policemen in Maharashtra, the worst hit State in India.

Among the deaths include 100 Paramilitary personnel and about 250 in Maharashtra Police, almost all of them while playing different roles during the pandemic.

This is for the first time in the history that the Annual Conference of the DGPs and IGPs, organised by the Intelligence Bureau, will be held virtually and all of them will participate from their respective headquarters, another official said.

DGPs and IGPs conference is an annual affair where senior Police officials of the States and the Centre meet and discuss issues of importance.

Modi Government has been organising it outside the national capital since it came to power in 2014. The last conferences have been held in Guwahati, Rann of Kutch in Gujarat, Hyderabad, Tekanpur in Madhya Pradesh and Pune.

SWR Mysuru Division conducts Anti-Plastic Campaign

- Distributes cloth bags to passengers
- Two staff in Yakshagana attire create awareness on wearing mask

Mysuru, Oct. 5 - As part of Swachta Pakhwara, South Western Railway (SWR), Mysuru Division, conducted an Anti-Plastic Campaign at Mysuru City Railway Station on Oct.1.

On arrival of 06539 Special Express from Bengaluru on Platform 1, members of South Western Railway Women Welfare Organisation (SWRWWO) along with Aparna Garg, Divisional Railway Manager and President, SWRWWO, Mysuru Unit, distributed cloth bags to passengers. The bags were contributed by the members of SWRWWO. They counselled and urged public to shun the use of plastic bags and helped the passengers who were carrying plastic bags to transfer their goods to the cloth bag.

Two staff dressed in attractive Yakshagana costume and headgear also created awareness throughout the day about necessity of wearing mask in public places and need for maintaining social distance.

This event was organised to educate travelling public about the ill-effects of plastic garbage to nature and join Railways' effort to reduce the same, specifically single use plastic.

Due to sustained efforts of the Railway staff and effective drives there is a substantial reduction in generation of plastic waste at Railway Stations, the DRM said.

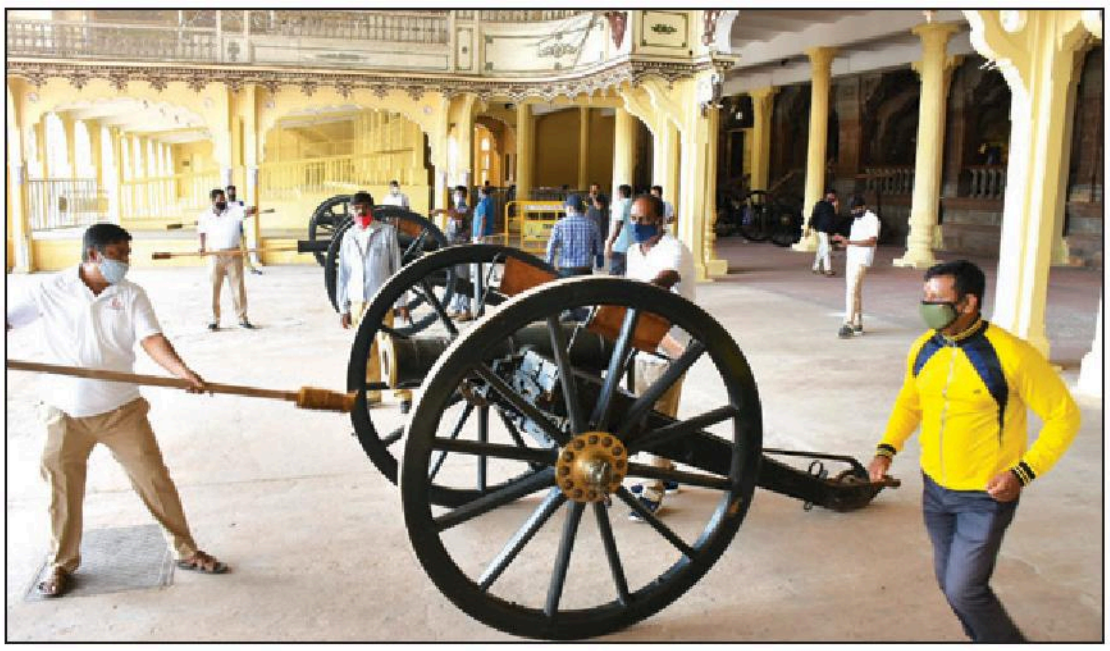
All Stations of Mysuru Division have already been provided with twin dustbins for segregation of waste at source and proper disposal of same is ensured.

Mysuru City Railway Station has four plastic bottle crushing machines and similar machines are provided at other ten major Stations over the Division.

RT-PCR test for Corporators, MCC staff, vendors

City Corporators Begum (Pallavi) and Vedavathi along with MCC staff and media persons registering their names for RT-PCR test at MCC premises this morning as it is mandatory for all those attending the MCC General Council Meeting tomorrow, to undergo the test. Picture right shows traders and roadside vendors undergoing COVID test in front of Dufferin Clock Tower this noon. MCC Commissioner Gurudatta Hegde has said that traders and roadside vendors must undergo both Rapid Antigen Test (RAT) and Reverse Transcription Polymerase Chain Reaction (RT-PCR) tests free of cost once in two weeks besides stating that those who fail to adhere to rules will not be allowed to do business.

Dry cannon drill begins at Palace



With just 12 days left for the commencement of Dasara, 'dry talim' or rehearsal with unloaded cannons began at Mysore Palace this morning. The dry drill is undertaken to train members of 'Pirangi Dala' or Cannon Unit involved in this ritual of cannon firing. All 30 members of the Cannon Unit, supervised by R-ASI Siddaraju took part in the dry drill and more than 10 rehearsals were conducted pertaining to handling of cannons and other subtle nuances involving firing with seven cannons. The rehearsals will go on till the day before Ayudha Puja.

SHRADDHANJALI

Shrimati Ullal Padmini Kini

(W/o Late Ullal Venkatesh Kini)

3rd April 1928 to 30th September 2020

Muukam Karoti Vaachalam Panggum Langghayate Girim |
Yat-Krpaa Tamaham Vande Param-Aananda Maadhavam ||

Salutations to Sri Krishna, who is the personification of Supreme joy.
By His grace even the dumb can become eloquent in speech, and the lame can cross over mountains.

Beloved mother of Dr. Sheila Shenoy , Dr. Subhash Kini
MIL of Dr. Jagadish Shenoy, Dr. Annapoorna Kini
Grandmother of Vinayak, Lavanya, Soumya, Akshay, Sameer and Venkatesh
Great-grandmother of Purvi
And teacher to many students

Remembered with love and respect by her beloved students, family and friends.

Vaastu-Feng Shui & Bio-energetics

By S.B.S.Surendran
Accredited Master Feng Shui Consultant

Accentuated spaces

Creating the right harmony and happiness in a home is not a easy task unless the immediate environment and the surroundings is harmonious and vibrant.

To ensure that a space is filled with good energy and is vibrant, the living space has to be balanced and it must have the right décor. Adapting Feng Shui, this can be achieved in a lot simpler way. The primary aim in adapting Feng Shui is to help achieve a more balanced, prosperous and healthy way of living for the occupants. By applying Feng Shui techniques and guidelines, you will clear your home of unwanted (or negative) energy while allowing the good energy to increase its presence and bring in a higher quality of life which is more balanced.

Using Feng Shui, the interiors of a space can be aligned to make it more meaningful and supportive to ensure overall emotional and physical well-being.

Feng Shui interior design is achieved by applying the Feng Shui philosophy when structuring and decorating the living spaces. When incorporating the use of Feng Shui interior design, the goal is to balance the energy — both positive and negative — within yourself, as well as your living space. In turn, you'll reap the benefits of tranquillity, peace, harmony and an overall sense of well-being. A Feng Shui interior design goes much deeper than just choosing the right style of furnishings and colour schemes; it's meant to bring balance, clarity, and good fortune to those who enter and reside in the space.

In other words, Feng Shui takes the focus off of what the furnishings look like, and place it on where and how the furnishings are arranged. It is the belief that the position of your furnishings, art work and other accessories, are relevant to the harmony of that space and will increase (or decrease) the positive energy in that area.

> Feng Shui relies on the belief that positive energy is increased when living things are present. This can be achieved by incorporating plants, potted flowers and bonsai trees. Don't forget about your pets and fish, as well

1. Placement and positioning of furnishings is extremely important as this will allow the free flow of energy to be present at all times. Remove all objects that seem to add clutter, especially around your entrance ways. Having multiple uncluttered pathways within your living space will increase the flow of energy and allow balance and harmony to take hold.

2. Feng Shui relies on the belief that positive energy is increased when living things are present. This can be achieved by incorporating plants, potted flowers and bonsai trees. Don't forget about your pets and fish, as well.

3. Lighting and music are also major factors in Feng Shui as they add to overall ambiance which leads to a source of calmness, relaxation and clarity. Try experimenting with coloured bulbs to find your preferred level of comfort and serenity.

4. If there was one word to describe Feng Shui it would be "natural." This holds true when selecting your furnishings. Choose items that are created from wood, stone or metal. Incorporating water elements into the overall design will also increase the natural concept in your home. Fish aquariums would accomplish that nicely.

Vidyavardhaka Engg. College signs MoU with Excelsoft

The Department of Mechanical Engineering, Vidyavardhaka College of Engineering (VVCE), signed a Memorandum of Understanding (MoU) with Excelsoft Technologies Private Limited, Mysuru, very recently. The major objectives of this MoU is to impart and enhance training programmes, internship, field visits, technical talks, entrepreneurship, job opportunities and engineering projects. Seen in the picture are S. Shiva Kumar, Head - Support Functions, Shankar Prasad, Senior Manager, Excelsoft Technologies, Dr. B. Sadashive Gowda, Principal, VVCE, Dr. G.V. Naveen Prakash, Head, Department of Mechanical Engineering, VVCE and faculty members.

Award presentation marks Teachers and Engineers' Day celebrations

Mysuru, Oct. 5- Lions Club of Mysore Garden City celebrated Teachers and Engineers' Day at a private hotel in city recently by felicitating Prof. Roopamalaa, Head of the Department of Computer Science, Sri Jayachamarajendra College of Engineering (SJCE), by presenting 'Teacher Extraordinaire Award' and Er. G. Suvarna, Executive Engineer, Mysuru Urban Development Authority (MUDA), Mysuru, by presenting 'Engineer par Excellence Award.'

On this occasion, Member Er. Veeresh was also felicitated for being promoted as Executive Engineer in PWD.

President Shalini Nagaraj presided over the meeting. MCC Nagaraj Bairy spoke about significance of celebrating Teachers & Engineers' Day. Yoganand, Umashankar and Bettegowda were the hosts of this event.

Revathi Krishnappa mastered the ceremony. Treasurer Pratima Krishna proposed a vote of thanks.

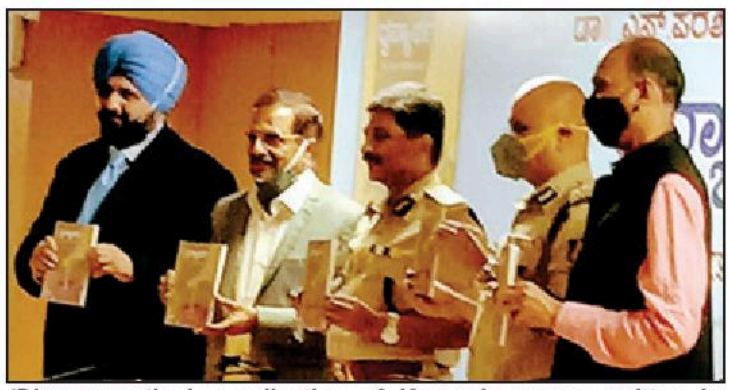
University Syndicate approves establishment of Vyasa-Valmiki Chair

Mysuru, Oct. 5- The University of Mysore (UoM) Syndicate has initiated the process of establishing Vyasa-Valmiki Chair in the University.

The recent Syndicate meeting chaired by Vice-Chancellor Prof. G. Hemantha Kumar is said to have given tactical approval for the establishment of the Chair. It has been decided to send a proposal in this regard to the Government and the next step on the establishment of the Chair will be taken after Government approval.

A Valmiki Study Chair is already functioning in Gulbarga University and as such, the Syndicate decided to set up Vyasa-Valmiki Chair in Mysore Varsity, it is learnt.

Police Officer's Collection of Poems released



'Dhwanyaartha,' a collection of Kannada poems written by Additional Director General of Police (ADGP - 1990-batch IPS Officer) Dr. S. Parashivamurthy (now retired), was released by Dr. Manu Baligar, President, Kannada Sahitya Parishat, recently at Police Head Quarters on Nrupatunga Road in Bengaluru, as DG&IGP Praveen Sood and others look on. The book contains a notable poem on COVID-19 titled — 'Corona - Shaanti.' An alumnus of Mysore Medical College and Research Institute (MMC&RI), he had also served as Mysuru City Police Commissioner.

Closed school behind Lakshmi Talkies turns dumping yard

Vidyani High School (National High School) behind Lakshmi Talkies has become a yard to dump all kinds of garbage and also a shelter to cattle, allege residents. They say that the school is closed since about three years and they have been suffering from unhygienic atmosphere since then besides stating that it has become very difficult to move around during dark. They have also alleged that the place has become a spot to answer nature's call besides a place to dump waste from meat stalls, which attracts stray dogs. The residents have urged the authorities concerned to take steps to get the place cleaned at the earliest.

Plea to clean vacant site at Srirampura

A vacant site measuring 50x100 near Brahmarambha Choultry in Srirampura 2nd Stage is filled with overgrown bushes and weeds making it a haven for reptiles and rodents. Residents said that it has become very scary to walk during night due to fear of snakes, which some time enter houses during day time too. Authorities concerned are urged to take steps to get the vacant site cleaned at the earliest.

Garbage throwing, a menace at Jayanagar

Throwing of garbage on the 20th cross in Jayanagar 2nd Main has become a nuisance to the residents living in the surroundings. They alleged that people throw garbage during midnight instead of handing over the same to pourakarmikas, who come to collect garbage in mornings. They also alleged that the civic workers who come to clean does not clear the garbage as they say that the place does not come under their jurisdiction which is resulting in the garbage getting scattered on the road. The residents have urged the authorities concerned to solve the problem.

GTTC opens door for a long, exciting and excellent career

Mysuru, Oct. 5 - The **Government Tool Room and Training Centre (GTTC)** located in Belagola Industrial Area, off KRS road, is one of the important State Government Institution recognised across the country for scientific research and training.

The first GTTC in the State was established in Bengaluru in 1972 and years later, 24 other centres came up across the State, including the one in Mysuru, which has become known for its technical excellence for the past several years.

Over the years, the GTTC has achieved excellence in Tool and Die making. The GTTC is equipped with modern tool room machinery including CNC, laser and such others. It also provides consultancy services globally in the fields of tooling, mould and die making etc.,

Apart from conducting several courses in Tool and Die making, GTTC provides practically integrated technical courses and on-job training programmes. The Institute has a good placement record, with a majority of students who pass out getting ample job opportunities both domestically and abroad.

The GTTC offers skill development and training programmes for SSLC, ITI, Diploma and Engineering graduates, with duration ranging from six months to one year. Apart from offering long-term, short-term and skill development courses, GTTC conducts corporate training and other specific courses in Tool Design.

Among many courses that GTTC runs, it include three-year Diploma course in Tool and Die Making, Precision Manufacturing, Mechatronics, Electronics and Manufacturing Engineering. The Diploma will be followed by a one-year apprenticeship at prestigious industries located across the country such as Toyota Kirloskar, L&T, Titan Industries, Videocon, Intel and Nokia. The Institute has an excellent placement record and many of the students have become enterprising entrepreneurs.

The Institute offers Government sponsored programmes such as Skill Karnataka, Skill development training programmes for SC/ST candidates and many other training programmes for economically backward candidates.

GTTC has some of the most modern equipment and experienced faculty to handle them and train students in equipment and machinery operation. It is one of the most valued technical institutions in the State, offering a wide scope for Research and Training in association with several other internationally known Institutions such as ISRO.

Other Specialised Courses

GTTC runs two-year M.Tech course in Tool Engineering, which is recognised by AICTE and VTU. BE graduates in Mechanical, Industrial Production, Automobile, Marine, Automation and Robotics Engineering are eligible to apply for this course, which covers subjects on Press Tools, Plastic Moulds, Pressure Die Casting, Dies, Jigs and Fixtures Making and Solid Works/ UG/Pro-E/KATIA/Design software development. The course is much in demand as it provides vast employment opportunities both in the country and abroad.

Post Diploma in Tool Design

It is a one year course involving subjects such as Press Tools, Plastic Mould, Pressure Die Casting, Jigs and Fixtures etc.

Engineering Diploma students from Mechanical, Industrial Production, Automobile, Tool and Die Making, Precision Manufacturing and Mechatronics.

Besides the above, there are several other technical courses post SSLC and post ITI. Only a limited number of seats are available for the courses with 30 percent of the seats reserved for women candidates. ITI passed candidates are eligible for direct admission to second year Diploma course.

For more details, call Mob: 91416-29594, 91416-29599 or Ph: 0821-2582750.

WORD OF THE DAY

Translucent

Pronunciation: trans-LOO-sunt.
Meaning: Permitting the passage of light: transmitting and diffusing light so that objects beyond cannot be seen clearly.
Origin: Look closely and you will see the same group of three letters in translucent and elucidate, letting the family relationship between the two words shine through. Both terms descend from the Latin word lucēre, meaning "to shine." (Translucent is from lucēre plus trans-, which means "through.") When you elucidate something, you make it clear by explaining it in a way that can be easily understood — you shed light on it. Lucēre is also the root of another bright and shining English word, lucid, which can mean either "bright with light" or "clear and easy to understand."
Example: "The dish starts with the gentle, slow sweating of diced onions. Once the onions are translucent, the minced garlic and jalapeno get added to the pot." —Anita L. Arambula

THE ODD WORD

Tacenda

Things not to be mentioned.

PHRASE OF THE DAY

Too many cooks in the kitchen

Meaning: Too many people working together on something may cause problems and the final product (the thing that's being worked on) can be negatively impacted as a result.
Origin: This phrase may come from eateries like restaurants, as these are obviously common places for numerous cooks to be found all in the same kitchen. But what's the problem with having several chefs in one room? Nothing per se, the problem comes when numerous chefs all want to work on the same dish and they all have clashing opinions on how it should be made. **Here's an example:** Several cooks want to make a delicious soup, but they cannot all agree on how it should taste. Some of them want to add more spices, others want a thicker broth, and still others want to add ingredients that are not traditional in the type of soup they are making. So each chef ends up putting in some ingredients that they think would work well together. The result? The soup tastes terrible! All those differing opinions in the kitchen resulted in a mess.
That's why this phrase is applied to other situations where too many people are working on something; the results may be disastrous.
Anyways, the alternative form of this expression goes back as far as the early 19th century. For example, it's written in The Tasmanian newspaper, August 1833: "It is an old, but very true saying, that 'too many cooks spoil the broth.'

QUOTE BOX

Happiness is a small house, with a big kitchen. **— Alfred Hitchcock**

Mumbai Indians pocket 34-run win over SRH

Sharjah, Oct. 5- Mumbai Indians (MI) registered their third win of the season after they beat Sunrisers Hyderabad (SRH) by 34 runs in Match 17 of Indian Premier League (IPL) 2020 at Sharjah Cricket Stadium yesterday.

Jasprit Bumrah removed Abdul Samad and Abhishek Sharma in the 19th and Kieron Pollard gives nothing away in the final over as MI pocket this match.

David Warner got stuck in as SRH remained on course to chase 209. But he was dismissed for 60 by James Pattinson. Manish Pandey smashed 30 off 19 to make up for the loss of Jonny Bairstow, who hammered 25 off just 15 balls to give SRH a good start against MI.

A slower ball by Trent Boult got Bairstow dismissed inside the Powerplay and another slower one by James Pattinson brought about Manish's fall.

Earlier, Hardik Pandya and Kieron Pollard got going at the death as they crossed 200 and finished 208/5 in their 20 overs.

Krunal Pandya's final-over flourish — 6, 4, 4, 6 off the last four balls — gave Mumbai the momentum going into the second innings.

Mumbai Indians beat Sunrisers Hyderabad by 34 runs to seal their third win of IPL 2020.

Pollard remained unbeaten on 25 off 13 even as Hardik was dismissed in the last over for 28 off 19. Quinton de Kock set things up for Mumbai with 67 off just 39 balls.

CSK beat KXIP

Dubai, Oct. 5- Chennai Super Kings (CSK) openers Shane Watson and Faf du Plessis smashed unbeaten half-centuries to help the side emerge victorious against Kings XI Punjab (KXIP) by a margin of 10 wickets, having been handed a target of 179.

CSK's massive triumph in match 18 of the IPL at Dubai International Cricket Stadium yesterday, will boost their confidence.

Watson smashed 83 runs off 53 deliveries in an innings comprising of 11 boundaries and 3 sixes. Du Plessis was exceptional as well, scoring 87 off 53 balls with 11 fours and 1 six to his credit.

Earlier, KXIP skipper K.L. Rahul scored a half-century to help his side post a score of 178/4 in 20 overs. Rahul was well-supported from Nicholas Pooran who scored 33 runs off 17 deliveries, smashing the ball to all corners of the ground.

Shardul Thakur was the pick of the bowlers for CSK, accounting for two wickets while conceding 39 runs.

BRIEF SCORES

MI: 208/5 (Quinton de Kock 65, Ishan Kishan 31; Sandeep Sharma 2/41) beat **SRH:** 174/7 (David Warner 60, Manish Pandey 30; Trent Boult 2/28) by 34 runs.

CSK: 181/0 (Faf du Plessis 87*, Shane Watson 83*) beat **KXIP:** 178/4 (K.L. Rahul 63, Nicholas Pooran 33; Shardul Thakur 2/39) by 10 wickets.

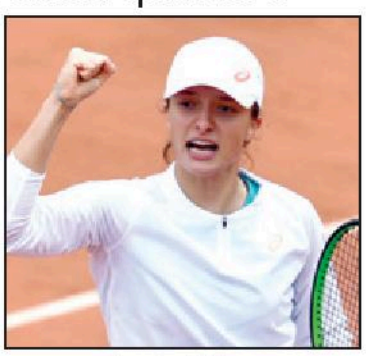
While Faf du Plessis scored an unbeaten 87, Shane Watson remained not out on 83 as CSK beat KXIP by 10 wickets.

French Open: Thiem, Nadal advance to quarter-finals

Swiatek stuns top seed Halep to reach quarters

Dominic Thiem

Rafael Nadal



Iga Swiatek

Paris, Oct. 5- Third seed Dominic Thiem survived a huge scare to reach the Roland Garros quarter-finals for a fifth straight year yesterday, battling to a 6-4, 6-4, 5-7, 3-6, 6-3 win over French wildcard Hugo Gaston, the world number 239.

US Open champion Thiem, the runner-up to Rafael Nadal for the last two years in Paris, will face Argentine 12th seed Diego Schwartzman for a place in the semi-finals.

Meanwhile, Diego Schwartzman continued his dominant run through the Roland Garros draw yesterday beating Lorenzo Sonego 6-1, 6-3, 6-4.

Nadal into 14th RG quarter-final

Rafael Nadal defeated American qualifier Sebastian Korda 6-1, 6-1, 6-2 to reach the Roland Garros quarter-finals for the 14th time yesterday, staying comfortably on course for a 13th French Open title and record-equalling 20th Grand Slam crown.

Second seed Nadal racked up his 97th win at the tournament against just two defeats since his title-winning debut in 2005.

He goes on to face Italian teenager Jannik Sinner in what will be his 42nd career appearance in the last eight of a Grand Slam.

Sinner became the first debutant to reach the French Open quarter-finals since Rafael Nadal in 2005 when he downed German sixth seed Alexander Zverev 6-3, 6-3, 4-6, 6-3 yesterday.

Women's Singles

Top seed and 2018 champion Simona Halep was sent crashing out of Roland Garros on Sunday when Polish teenager Iga Swiatek stormed to a shock 6-1, 6-2 victory to reach the quarter-finals.

Swiatek, just 19 and ranked 54 in the world, will take on Italian qualifier Martina Trevisan, who beat Dutch fifth seed Kiki Bertens, for a place in the semi-finals.

The 26-year-old Trevisan, ranked 159, registered a surprise 6-4, 6-4 victory to advance to the quarter-finals.
